Experience

git log --graph

Lonestone Full-stack engineer HEAD JUL 2021 – NOW · 5Y 3M

Production web apps for healthcare, SaaS and corporate clients: maintainable architecture, product velocity, polished interfaces.

- **Desoutter** — Led the development of a modern corporate website.
  - Next.js · Tailwind CSS · TypeScript
- **Cuevr** — AI-powered platform for creating commercial proposals.
  - React · NestJS · AI · Queue · Streaming
- **Mon Rét@b' d'abord** — Web app supporting mental health recovery, with self-assessment and wellness tools.
  - React · NestJS · MikroORM · PostgreSQL · Keycloak

more client work, not listed

Easilys Full Stack Developer JUL 2019 – JUL 2021 · 2Y

Developed and maintained a collective catering management app: a new React interface and new features.

React · Node.js · Vue · PostgreSQL

Sogeti Work-Study Program SEP 2017 – JUL 2019 · 1Y 10M

Innovation pole: a GitFlow tool in React and a machine-learning chatbot for emotion understanding.

React · Python · Rust · TensorFlow · DialogFlow

Projects

netoun ps --projects

06 **My website** · SRC

Portfolio with a neo-retro design system, on React Router and Vanilla Extract.

github.com/netoun/netoun.github.io ↗

2026-04
